

HVFC Scholarship Program

In an effort to be as inclusive as possible and provide an opportunity to those with financial needs to participate in HVFC activities, the Club has adopted a scholarship policy. It is our belief that economics should not be a reason to be excluded from our game.

Eligibility

The Richard B. Russell National School Lunch Act is a United States federal law signed by President Harry S. Truman in 1946. The act created the National School Lunch Program (NSLP), a program to provide low cost or free school lunch meals to qualified students through subsidies to schools. The program was established as a way to provide food to school age children.

The HVFC Scholarship Policy is based on meeting the requirements of the NSLP. If your family qualifies for free or reduced lunch at the school they attend, then your family also qualifies for the HVFC Scholarship Program.

- Qualification for the National School Lunch Program and presentation of proof of enrollment qualifies the player for the *HVFC Scholarship Program*.
